Dear Mr. Paul Van Rensburg,

I'm pleased to inform you that VR Print has completed the technical validation for digital and flexo printing of Scantrust's Anti-Counterfeit QR Codes. VR Print is now an officially accredited Scantrust Printing Partner.

VR Print is currently the only printing company in South Africa which can produce Scantrust Anti-Counterfeit QR codes.

We look forward to working together in 2025 and beyond.

Regards,

A handwritten signature in blue ink that reads "Tim Hadsel-Mares".

Tim Hadsel-Mares
Regional Director
Scantrust S.A.
